

Validation testing variables:

Club	Male Yardage	Female Yardage
Driver	210+	160+
3 Wood	195-210	140-160
5 Wood	180-195	120-140
2 Iron / Hybrid	170-180	N/A
3 Iron	160-170	N/A
4 Iron	155-160	110-120
5 Iron	145-155	100-110
6 Iron	140-145	90-100
7 Iron	130-140	80-90
8 Iron	115-130	70-80
9 Iron	100-115	60-70
Pitching Wedge	0-100	0-60

While testing the GUI I typed the different distances to see if each type of club would display for male and female clubs. A problem I ran into was the use can enter a negative number and still get a result as if it wasn't a negative number.

Distance

BACK

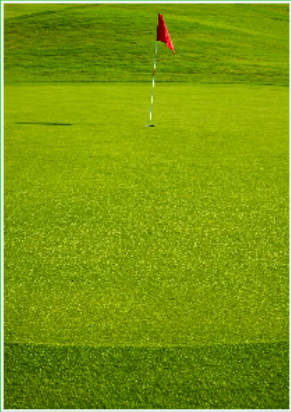

EXIT

ENTER THE DISTANCE FROM GREEN

162

MALE

FEMALE

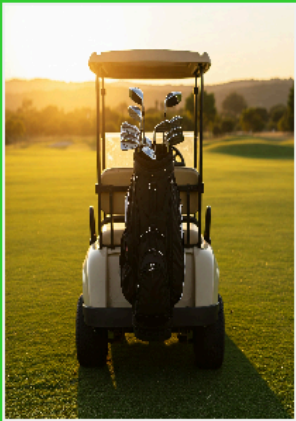

Recommendation

BACK

EXIT

I'd recommend using a Driver
